|  | KUTCH COPPER LIMITED | Revision: 01 |
| | ENERGY MANAGEMENT POLICY | Date.: 04.12.2025 |

At Kutch Copper Limited, we are committed to sustainable and efficient operations and minimizing our environmental footprint. As a responsible organization, we pledge to optimize energy use and continuously improve our energy performance.

This policy applies to all employees, and business partners engaged in Kutch Copper Limited (KCL).

To achieve this, Kutch Copper shall strive to:

- Comply with all applicable energy laws, regulations, and standards.
- Measure, monitor and review the energy performance in accordance with this policy at regular intervals and publicly disclose energy performance.
- Set objectives and targets to improve energy efficiency and reduce energy intensity by implementing energy conservation projects and adopting energy efficient technologies and best available technologies.
- Integrate energy management considerations in our strategic approach and business decision making process.
- Promote usage of renewable, green, and clean energy sources.
- Collaborate with suppliers and partners to promote energy efficiency and sustainability throughout our supply chain.
- Engage with relevant stakeholders to raise awareness about energy conservation and improving energy efficiency.
- Take corrective actions and implement mitigation measures in case of deviations from energy performance targets or identified high-emission activities

The aforesaid policy shall be made available to all the relevant stakeholders. The policy shall be reviewed periodically, at least every two years, for its appropriateness and updated as necessary.

Oversight & Responsibility:

This policy is overseen by the Managing Director.
